

EUROPAL - runner pallet

800 x 1200 mm

With closed runners and iron reinforcement
Made from 100% recycled polyethylene

Sensible recycling products protect the environment

technical specifications

size	800 x 1200 mm
height	150 mm
weight	26.5 kg
runners	closed
rim	without
static load	5000 kg
dynamic load	1500 kg
high rack	up to max. 1500 kg*
material	100% PE recyclate
standard colour	black

These values are approximate
All sizes are in mm

*with an evenly distributed load on the pallet. The pallet must be tested with the load before use on the rack.

Because our EUROPAL pallet has closed runners they are particularly usable for roller conveyors and conveyor systems. Iron reinforcement makes the pallet additionally suitable for use in high rack. The pallet is suitable for food contact, easy to clean and has a long service life. Upon request we emboss, print, dye or manufacture the pallet to your individual liking.
