

# SECUPAL - stackable pallet

1000 x 1200 mm

Made from 100% recycled polyethylene

RECYCLEN

Sensible recycling products protect the environment

## technical specifications

size	1000 x 1200 mm
height	138 mm
weight	16.5 kg
runners	9 feet
rim	without
upper deck	9 stacking openings
static load	2000 kg
dynamic load	500 kg
material	100% PE recyclate
standard colour	black

These values are approximate  
All sizes are in mm

The SECUPAL stackable pallet is piled on top of the other, the particular characteristic of this pallet is the space saving properties. That means that in practice 35 piled pallets only reach a height of 2 meters. The pallet is suitable for food contact, easy to clean and has a long service life. Upon request we emboss, print, dye or finish the pallets to your individual liking.
