Made from 100% recycled polyethylene

Sensible recycling products protect the environment

technical specifications

| | |
|-----------------|---------------------|
| size | 800 x 1200 mm |
| height | 150 mm |
| weight | 23 kg |
| runners | closed |
| rim | without |
| static load | 5000 kg |
| dynamic load | 1500 kg |
| high rack | up to max. 1000 kg* |
| material | 100% PE recyclate |
| standard colour | black |

These values are approximate
All sizes are in mm

*with an evenly distributed load on the pallet. The pallet must be tested with the load before use on the rack.

Because our EUROPAL pallet has closed runners they are particularly usable for roller conveyors and conveyor systems. The pallet is suitable for food contact, easy to clean and has a long service life. Upon request we emboss, print, dye or manufacture the pallet to your individual liking.
